## Interior Access Panel for Curtain Wall, Window Wall and Storefront

The **YPI 1500** is an interior secondary access panel window system designed for new and retrofit installations where enhanced thermal, sound, or privacy performance are critical to occupant comfort. It can be integrated into most new and retrofit Storefront, Window Wall and Curtain Wall systems with little disruption to building occupants.

- Lift out or side-hinged panel options with custodial locks for security and ease
- Integrated 5/8" or 1" between glass Venetian Blinds available in over 10 colors
- Slip-resistant blind tilt control knob to conceal the blinds
- Vent (VMPL) and Frame (FMPL) multi-point locking available
- New or retrofit installation with low maitenance required

#### Configuration:

**NOTE:** YKK AP recommends that a full YPI 1500 Interior Access Panel is ordered as a demo and to be provided at least one seasonal cycle prior to installation. This will allow building occupants, facility staff, and the design team an opportunity to gauge the effectiveness of interior accessory windows, and verify the suitability of operation maintenance, existing glass type(s), and surrounding conditions. Internal fogging and thermal stress in existing annealed glass are of particular concern.

### More on the Venetian Blinds

Digital colors of blinds may vary from actual color. A physical YPI Blind Size and Color Chart is available on request. Please contact your local sales rep or branch to acquire a sample chart for color accuracy.
